

Kenya Evangelical Mission  
Update on Lois Osborne  
Friday, October 5, 2018

Several of you have sent notes to me (which I forwarded to Lois) saying that you have been praying for her cataract operation this week. She says she really appreciates all of you. Several have also written and asked how she was doing now. I received this note this morning early and am passing it on to all of you:

“The eye is not good and am concerned. Very cloudy. Doctor says it is just water that will go away. Gave me water pills and killer drops. Ask everyone to keep praying please.”

I am assuming that the other eye is doing well. She had that done a few weeks ago and I haven't heard otherwise. Have a great day!

Blessings- Sue
