Lois Osborne, Missionary to Kenya

---

February 2021

Dear Family and Friends,

Greetings and Happy Valentine's Day. Hope your New Year is going well. Although many have suffered and struggled in 2020, we were very blessed. The slower pace of life was a blessing. Many were saved, and much was accomplished.

God helped us finish a large church at Tala, the next town over from Kangundo. It was built in memory of Glenda Berger who went to be with the Lord. Her family and friends have remembered her by giving for this lovely new church. We made it larger than our other churches, as it is in a very populated area. A neighbor who saw the building project donated a large piece of connecting land and a clean water supply that we only need to pipe. We are waiting for Kenya Power Company to bring electricity, a drop line and 2 poles.

The Kisii church is almost done. We need \$1,000 to finish it and \$1,000 to buy a small piece of land to build outdoor toilet facilities.

We recently opened 5 new churches, and we are being given land for another church at Kakamega. We are also working on opening another church in Tanzania. The new Kakuma Church at the refugee camp had 300 people when the board members visited in January.

*Community Center*

*Church in Tala*

Our schools in Kenya are open and doing well. Our college computer class needs more students and the Bible classes will open soon. Virus counts in this country are very low, a little over 100 a day, and it has not been affected by the opening of public schools.

Thank you for supporting us through another year with your prayers and giving. As they say here in Kenya, "May God pay you big!"

Love,

Lois, Shad, and Fitz

Prayer Request: Victory, our very first church, is now packed with people and has outgrown the building. We need to do a big extension. People are standing and sitting outside. Pray for God to supply the funds for this well-needed extension.
